

Spin is a rug for exterior and interior environments created by joining elements made of a one- or two-colour cord.

The cord is wound and sewn by hand to create spirals and stylized leaves.

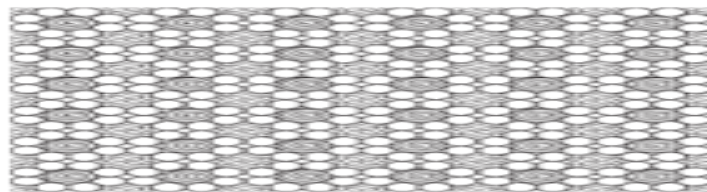

These elements are sewn together in the modules of 33 x 33 cm each which form the rug.

The floor can be seen through the gaps between the elements.

Only one colour can be chosen.

The handwork and the preciousness of the designs advise against the use of Spin in high traffic areas.
