

Shang is a rug for exterior and interior environments hand made with a one- or a two-colour cord.

The rug is entirely shaped by hand and then machine sewn with a highly resistant thread in the same colour of the cord.

Shang is available in two versions.

version 1

The rug is produced with round decorated modules sewn together to create alternate geometric sequences.

Each module has a diameter of about 70 cm.

version 2

The rug consists of one round decorated module.

For both versions, only one colour can be chosen.

The handwork and the preciousness of the designs advise against the use of Shang in high traffic areas.
