

Marea is a rug for exterior and interior environments created with *mélange* Rope braids shaped like waves, which are sewn together lengthwise. The extremities of each braid are finished with a fringe which is always featured on the short side of the rug. Only one colour can be chosen.

The width of the braid may vary between 7-9, therefore the dimension of the fringed side, which is determined by the multiple of the braids, will often vary.

The textile structure of this rug is free: an intense stepping may cause a variation of the rug dimensions.
