

Crochet is a rug for exterior and interior environments entirely hand made.

The rug is produced with hand crocheted flowers and leaves sewn by hand to a synthetic net backing.

The floor can be seen through the gaps between the elements.

Only one colour can be chosen for the standard version: it is also possible to create custom-made rugs by selecting a maximum of ten colours.

The colour of the support net is established by the company during production to achieve the best possible combination with the colour of the cord chosen.

The handwork and the preciousness of the designs advise against the use of Crochet in high traffic areas.

The Crochet rug won the EDIDA DESIGN OF THE YEAR award in 2007.
