

Side tables with top in stone, marble or Sciara.

Top: shaped, in irregular forms, in:

- Pietra di Comiso
- Sinai stone
- marble in different colours and typology according to availability
- Sciara.

Base: AISI 304 stainless steel:

- matt varnished in brown colour for side tables with Pietra di Comiso top
- varnished in white colour for side tables with Sinai stone top
- varnished in a colour matching the top for side tables with marble top
- matt varnished in grigio lava colour for side tables with Sciara top.

Plastic spacers.

Notes:

The tops of the Isole side tables are available in two versions: slightly rounded, in Pietra di Comiso, or completely flat, in Sinai stone, marble or Sciara.

The first version represents continuity and standard availability, the second originates from the desire of recovering materials that, on their turn, inspire and lead design towards different interpretations of the same object. Isole is therefore a collection meant to change with time.

The tops in Pietra di Comiso, Sinai stone and marble are treated to be oil- and water-repellent with water-based products that limit the absorption of liquids and greasy substances.

The marbles currently available are the Fossil Brown (to be considered as phasing out) and the Caravaggio.

The decoration of the tops in Sciara is hand-made and makes each piece unique. The lava slab is 12 mm thick: the edge may be only partially decorated with glass depending on the behavior of the material during processing.

Due to the nature of the materials, different tops, even in the same lot, can have light differences in colour or in the texture of the surface.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
