Base: Sassafras wood with natural finish or dyed in wengé colour, plastic spacers.

Structure upholstery: fixed and available in:

- Rope cord
- Rope mèlange cord
- flat cords in Rope yarn in different colours, hand-woven to feature a square pattern
- Moss cord
- Aquatech cord
- Thuia fabric.

Seat cushion: removable, in recycled and biodegradable polyester fibre, stress resistant polyurethane insert, fixed foam cover in waterproofed polyester.

Seat cushion upholstery: removable and available in the outdoor fabrics listed here below.

A back cushion and a loose cushion are necessary for complete seating comfort.

Back cushion: removable, in recycled and biodegradable polyester fibre, stress resistant polyurethane insert, fixed foam cover in waterproofed polyester.

Loose cushion: removable, in recycled and biodegradable polyester fibre, fixed foam cover in waterproofed polyester.

Cushions upholstery: removable and available in the outdoor fabrics listed here below.

Notes:

As an alternative to the traditional combination of back and loose cushions, it is possible to use modular back cushions padded with polyester fibre, insert in stress resistant polyurethane and fixed covering in waterproofed polyester. These cushions are available with two different densities, firmer or softer. When choosing the seat and back cushions with the softer padding, it will be possible to select the upholstery fabric only between: Rope T M lange, Whim, Moss, Roseto, Felce and Jabel.

The sassafras wood is treated against stains and water with waterbased products that limit the absorption of liquids and greasy substances. The change in colour and the superficial splits that might appear are typical of the wood natural evolution.

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
