

Series of side tables available in different dimensions.

**Structure:** AISI 304 stainless steel, matt varnished in avorio or grigio lava colour, plastic spacers.

**Support surface:** made of varnished aluminium in a colour matching the structure (for tables composed of more tesserae only).

**Top:**

- composed of elements in stoneware hand-decorated with glass (side tables code B148A and B148B);
- single element in lava stone hand-decorated with glass (side table code B148Q).

**Notes:**

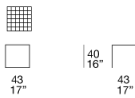

The top décor is made by hand and makes each single piece unique. The material, the particular production process and technique lead to different patterns on each tile, which in turn form tops, which are different from one another, even within the same batch. Irregularity is the featuring characteristics of this production, since it is impossible to guarantee identical tesserae, identical tops or identical percentage of material and colour in the decorations within the same order and/or in different orders.

The stoneware tiles composing the tops of the Bloom side tables can be used also to cover and decorate vertical surfaces. Minimum order: 3 square metres in the same colour.

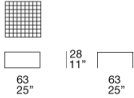

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
