

Padded seat pad with fixed upholstery cover.

Structure: Maglia Rasata padded with recycled and biodegradable polyester fibre.

Notes:

Maglia Rasata is a knitted upholstery fabric obtained by mixing the yarns used for the production of the outdoor fabrics in the collection. Due to the very nature of the processing, it will never be possible to reproduce exactly the mélange variants proposed, which can therefore be indicated only as a reference for the shades.

Maglia Rasata is an exclusive fabric signed Paola Lenti.

This product can be used also in interior environments.
