

Side table.

The series Sunset also includes dining tables.

Structure: cataphoresis treated steel, matt varnished in avorio or wengé colour. Plastic spacers.

Top:

- Sassafras wood, natural, combined with structures in avorio colour;
- Sassafras wood, wengé dyed, combined with structures in wengé colour.

Notes:

Sassafras wood is treated against stains and water with water-based products that limit the absorption of liquids and greasy substances.

Wood normally matures over time, changing in colour, compactness and texture, without this affecting its quality.

This product can be used also in interior environments.

For this product, the prolonged use of the Winter Set protection usually proposed for products intended for outdoor use is not recommended. The use of the Winter Set could create a humid environment, with no air recycling, which could consequently generate damage to the material. To avoid permanent damages, the use of the Winter Set is allowed only for short periods, such as for example to protect the product during sudden rain falls. As to maintain the product at its best, it is also recommended to always dry it after prolonged exposure to heavy rain or high humidity.
