

Dining table available in two different dimensions. The top features the central section divided into independent and removable elements. It is possible to replace the desired number of such elements with white gloss-varnished metal trays. The series Kanji also includes a side table.

Top: fibreboard veneered and finished Mano Opaca.

Base: multilayer wood and fibreboard veneered and finished Mano Opaca.

Notes:

The central part of the table is divided into section with 60 cm length each. It is possible to remove the desired number of sections and replace them with the trays.

The elements composing the central section, which are removed and replaced by the trays, can be stored in a specific compartment existing under the tabletop.

Trays can be also used as accessories to be simply placed onto the table.

Awards: the Kanji dining table received the Special Mention of the GERMAN DESIGN AWARD 2016 in the Excellent Product Design category and won the RED DOT AWARD 2016 in the Product Design category.
