

Series of poufs available in different dimensions.

Structure: polypropylene microspheres, insert in expanded polyurethane covered with water repellent fabric, fixed foam cover in three dimensional polyester fabric.

Upholstery: removable and available in Kimia fabric, sand or basalto colour, embroidered by hand with flat braids in Rope yarn.

Notes:

The embroideries on the Kimia fabric are made by hand according to predetermined patterns.

In case of upholstery in Kimia fabric in sand colour, a further covering in Luz fabric in matching colour is added to the foam covering in threedimensional polyester fabric.

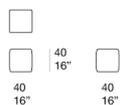

The pouf item B134DE can be completed by a backrest to be positioned as desired, made of expanded polyurethane with base provided with ballast (backrest of the Orlando series).

Despite the polyurethane insert, the polypropylene microspheres, at some extent, can freely move inside the cover; because of this and the different textures and firmness of the upholstery fabrics, the dimensions given below are only an indication and may vary by some centimeters.

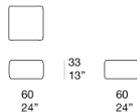

This product can be used also in interior environments.

We advise to use a Winter Set protection cover.
