

Table with aluminium base, tops and accessories in stoneware.

Base: legs and joints in cast aluminium, central plank under the top in extruded aluminium, all matt or gloss varnished in a colour coordinated with the top. Adjustable aluminium feet.

Top: composed of elements in Glaze available in two dimensions, 50×80 cm and 50×100 cm.

Accessories: structure matt or gloss varnished in a colour coordinated with the top, tops in Glaze.

Notes:

The composition of the aluminium base allows for the assembly of tables with a length of 4m without the necessity of further central legs.

The two head elements always have the size of 50×100 cm.

The accessories are available in two heights (19 cm and 24 cm) and slide along the central plank that connect the table bases as to be fixed in the desired position. The tops code B172F and B172G are swiveling.

The Glaze tops are created by manually glazing molded elements in porcelain stoneware. The possible, slight colour and appearance differences of the tops are unpredictable and represent the value and featuring characteristics of a fully handcraft work.

The product can be used also in interior environments.

We advise to use a Winter Set protection cover.

Awards: the Altopiano table has been awarded the GERMAN DESIGN AWARD “GOLD” 2024 in the Excellent Product Design-Gardening and Outdoor Living category and the STYLEPARK SELECTED AWARD 2022 as one of the best new products of the year.
