

Chair with armrests with removable upholstery and wooden legs.

The series Charlotte also includes an armchair.

Internal structure: thermoformed ABS connected to the external structure by screws.

Legs and visible structure: ash heartwood finished Mano Opaca. Spacers in plastic material and felt.

Padding of the internal part of the backrest: stress resistant cold injected polyurethane.

Fixed foam covering: three-dimensional fabric, 100% polyester.

Seat cushion: independent, with removable cover in stress-resistant expanded polyurethane.

Fixed foam covering: recycled and biodegradable polyester fibre and polyamide.

Chair and seat cushion upholstery: removable and available in Piqué fabric.

Notes: the upholstery fabric is fixed to the wooden structure by means of hidden zippers.
