

High double-sided cabinet with four doors.

Structure: natural ash heartwood, adjustable spacers in steel and rubber.

Doors: natural ash heartwood and rods, varnished steel hinges, handcrafted weave with a flat braid in Rope yarn.

Shelves: fixed, in blockboard wood veneered with natural ash wood.

Notes:

Nuvola cabinet is produced in a limited, numbered edition of just twelve pieces.

The structure, doors, and shelves are treated with an industrial varnishing cycle with transparent matt acrylic wax.

Conceived as a form of domestic micro-architecture, Nuvola defines interiors with quiet elegance, articulating space through subtle refinement. Its double-sided configuration—featuring mirrored openings—dissolves the distinction between front and back, allowing the cabinet to be accessed and appreciated from any perspective. The four fixed internal shelves make it suitable for both display and storage.
