

This rug is created with a tubular knit with a soft, “shaggy” appearance, and a deliberately irregular texture sewn with Punto Zigzag (Corda Ruffle).

The centre of the rug consists of a set of four well-defined circular shapes of different sizes and colours.

Around these a cord is sewn, which follows their contours until it becomes softer as you go to the point of the required size of the rug, that can thus be slightly shaped.

The Joy rug is available in one colour or in pre-determined colours combinations.
